

Sinclair Broadcasting System is a free, national provider for television networks. It is due to this fact that I feel that airing an anti-Kerry ad previous to the election is unjust. I do not believe this, solely because the message is anti-Kerry, for airing an anti-Bush ad would be to the same effect. Television stations, sadly, are most American's eyes and ears for presidential elections, and to use that to skew the information in a bias way, towards either candidate is a violation of trust. Trust that the news watched to inform you is misleading. I strongly advocate the inhibiting of Sinclair Broadcasting Systems from airing and anti-candidate speculation. Thankyou for your time and consideration.
Sincerely,
Angela Garcia
